

Instructions

Specific information requested within this application is mandatory to provide, as it is prescribed by Schedule 1 to Ontario Regulation 543/06 made under the *Planning Act*. This information must be provided with the appropriate fee, and the site sketch of the location subject to this official plan amendment application. If the mandatory information, together with the site sketch and fee, is not provided, the Township may refuse to accept or further consider the application.

This application form also sets out other information that may be needed as permitted under the Official Plan for The Township of Ear Falls. To ensure the quickest and most complete review, this other information must be submitted with the complete application. Answers should be provided with a detailed explanation or yes/no format. Answers stated as 'not applicable (n/a)' will not be accepted. In the absence of this other information, it may not be possible to do a complete review which may result in delay and possible refusal of the application.

Early Consultation

Prior to formally submitting an application, the applicant and/or agent are encouraged to contact staff of the Municipal Office to discuss the development proposal. Early consultation is beneficial, as the applicant can review the proposal with Municipal staff and discuss what supporting documents and information may be required.

Submission of the Application

The Township requires:

- ✓ The original signed, and witnessed copy of the application. Note: the Clerk Treasurer Administrator is a Commissioner of Oaths.
- ✓ Measurements in metric units (i.e. centimetres, metres, kilometres; 1 foot = 0.308 metres)
- ✓ The application to be completed in blue or black ink only
- ✓ A copy of the Parcel Identification Number Abstract from the Kenora Land Titles office or Terranet dated not older than 6 months and proof of land ownership (i.e. Tax Bill or copy of MPAC Assessment Notice).
- ✓ Colour photos of the subject location from the ground (not aerial), if available
- ✓ The application fee

If you are unfamiliar with making *Planning Act* applications or have difficulty with the application process you are encouraged to retain a planning consultant. Generally, for completion of the application and in preparation of a good site sketch, you may consult the Township of Ear Falls.

PROPOSAL INFORMATION:

How in your view will the proposal fit with the existing land uses in the area?

Is the proposed amendment consistent with the Provincial Policy Statement issued under subsection 3(1) of the Planning Act?
(The 2014 Provincial Policy Statement can be found on the website of the Ministry of Municipal Affairs and Housing at www.mah.gov.on.ca/Page215.aspx)

Land within the Township of Ear Falls is designated under a Provincial Plan being the Northern Growth Plan that took effect in March 2011. Does this application conform or not conflict with the plan?

SITE PLAN SKETCH:

Minimum requirements will be a sketch, on letter paper, showing the following:

- North arrow, scale and legend.
- The boundaries of the owner's property and dimensions.
- The boundaries of the property subject to the application including area and dimensions if different from above.
- The location, dimensions (height, length, and width) and type of all **existing** and **proposed** buildings and structures on the subject land, indicating the distance of the buildings or structures from other buildings and the front yard line, rear yard line and the side yard lot lines.
- The location or proposed location of any sewage disposal systems, including pit privies, grey water, or septic systems.
- The approximate location of all natural and artificial features on the subject land and on land that is adjacent to the subject land that, in the opinion of the applicant, may affect the application. Examples include buildings, transmission lines, roads, watercourses, slopes, drainage ditches, river or stream banks, wetlands, wooded areas, and wells.
- The existing uses of lands on adjacent properties (i.e. residential, automotive repair, retail).
- The proposed development, including the area and dimensions of any new lots to be created, the size and location of buildings, parking spaces, landscaping, amenity areas, etc.
- As applicable - fire access route, outdoor equipment and storage, walkway, curbing, fencing.
- Existing municipal infrastructure immediately adjacent to the site (roads, lane, sidewalks, existing entrances, boulevard trees, fire hydrants, hydro poles, easements, etc.).
- The location, width and name of any roads within or abutting the subject land, indicating whether it is an unopened road allowance, a public traveled road, a private road or a right-of-way.
- If access to the subject land is by water only, the location of the parking and docking facilities to be used.
- The location and nature of any easements affecting the subject land.

The table below is a checklist (not a substitute for the Provincial Policy Statement) identifying areas of provincial interest that may apply to the requested amendment. Please check the appropriate boxes.

Development Circumstances OR Features of Interest to the Province	(a) If a feature / land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature / land use, specify distance from site (in meters)	Additional information that may be required
Employment lands			<p>If the requested amendment is proposing to remove lands from an area of employment for non-employment use, a comprehensive review should be undertaken to demonstrate:</p> <ul style="list-style-type: none"> ● the land is not required for employment purposes over the long term, and that ● there is a need for the proposed conversion.
Rural areas located in municipalities			<ol style="list-style-type: none"> 1. Assess compatibility with rural landscape and whether new development could be sustained by the existing level of rural services; 2. Demonstrate appropriateness of available or planned infrastructure and avoiding the need for unjustified and/or uneconomical expansion of this infrastructure; and 3. Demonstrate compliance with the minimum distance separation formulae where new land uses and new or expanding livestock facilities are proposed.
Rural areas in territory without municipal organization			<ol style="list-style-type: none"> 1. Demonstrate relationship to the management or use of resources and resource based recreational activities; or 2. If proposal is in an area adjacent to and surrounding municipalities, provide information that: <ul style="list-style-type: none"> ● the area forms part of a planning area; and ● a comprehensive review has determined that the impacts of growth will not place an undue strain on the public service facilities and infrastructure provided by adjacent municipalities, regions and/or the province.
Class 1 industry ₁			<p>If sensitive land use is proposed within 70 m from the boundary lines, a noise / odour / particulate study may be needed.</p>
Class 2 industry ₂			<p>If sensitive land use is proposed within 300 m from the boundary lines, a noise / odour / particulate study or other studies may be needed.</p>
Class 3 industry ₃			<p>If sensitive land use is proposed within 1000 m from the boundary lines, an assessment of the full range of impacts and mitigation measures may be needed.</p>
Landfill site(s): closed/active landfill			<p>If sensitive land use is proposed, and if within 500 m of the perimeter of the fill area, studies including leachate and groundwater impacts, noise, methane gas control, odour, vermin and other impacts may be needed.</p> <p>The proponent may also be requested to provide other information such as age and size of landfill site; type of waste disposed on site; projected life of site; size of buffer area; amount of truck traffic per day, etc.</p> <p>If proposal is on a closed landfill that is 25 years old or less, approval under Section 46 of the <i>Environmental Protection Act</i> is required and should be obtained prior to any <i>Planning Act</i> approval.</p>
Sewage treatment plant and waste stabilization pond			<p>There is need for a feasibility study if the proposal is for a sensitive land use and the property line is within:</p> <ul style="list-style-type: none"> ● 100 m of the periphery of the noise/odour-producing source structure of a sewage treatment plant (STP) producing less than 500 cubic metres of effluent per day; or ● 150 m of the periphery of the noise/odour-producing source structure of a STP producing greater than 25,000 cubic metres of effluent per day; or ● 400 m from the boundary line of a waste stabilization pond.
Provincial highways			<p>Consult with the Ministry of Transportation to assess whether direct access to the provincial highway will be permitted. If so, permits will be required for all proposed buildings/land use and entrances within the permit control area in accordance with the <i>Public Transportation and Highway Improvement Act</i>.</p> <p>If the proposed development is located in proximity to a provincial highway, a traffic impact study and a storm water management report will be required by the Ministry of Transportation.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature / land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature / land use, specify distance from site (in meters)	Additional information that may be required
Airports where Noise Exposure Forecast (NEF) or Noise Exposure Projection (NEP) is greater than 30			If the proposal is to redevelop existing residential uses and other sensitive land uses, or infill of residential and other sensitive land uses in areas above 30 NEF/NEP, assess feasibility of proposal by demonstrating no negative impacts on the long-term function of the airport.
Active railway line and major highways			A noise feasibility study may be needed to determine possible noise impacts and appropriate mitigation measures if sensitive land use is proposed within: <ul style="list-style-type: none"> ● 500 m of a main railway line or of any provincial highway; ● 250 m of a secondary railway line; ● 100 m of other railways or a freeway right of way; and ● 50 m of a provincial highway right-of-way.
Electricity generating station, hydro transformers, railway yards, etc.			If sensitive land use is proposed, and if within 1000 metres, a noise study may be needed to determine possible noise impacts and appropriate mitigation measures.
High voltage electric transmission line			Consult the appropriate electric power service/utility for required buffer/separation distance.
Transportation, other infrastructure, utility and hydro corridors			If an OPA is proposed for an area in a planned corridor, demonstrate that the proposed development would not preclude or negatively affect the use of the corridor for the purpose(s) for which it was identified.
Cultural heritage and archaeology			Significant built heritage resources and significant cultural heritage landscapes shall be conserved; adverse impact on these resources are to be mitigated. Development and site alteration shall only be permitted on lands containing archaeological resources or areas of archaeological potential if significant archaeological resources have been conserved by removal and documentation, or by preservation on site. Where significant archaeological resources must be preserved on site, only development and site alteration which maintain the heritage integrity of the site may be permitted. Development and site alteration may be permitted on adjacent lands to protected heritage property if it has been demonstrated that the heritage attributes of the protected heritage property will be conserved. Mitigation measures and/or alternative development approaches may be required in order to conserve the heritage attributes of the protected heritage property affected by proposed adjacent development or site alteration.
Prime agricultural lands/areas			<ul style="list-style-type: none"> ● If land is to be excluded from prime agricultural areas to allow for expansion or identification of settlement areas to accommodate growth and development, a comprehensive review must be undertaken. ● Demonstrate the need for use other than agricultural and indicate how impacts are to be mitigated. (Lands could be excluded from prime agricultural areas for non-agricultural uses provided that the criteria as set out in section 2.3.5 of the PPS are met).
Agricultural operations			If development is proposed outside of a settlement area, need for compliance with the Minimum Distance Separation Formulae.

Development Circumstances OR Features of Interest to the Province	(a) If a feature / land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Mineral mining operations and petroleum resource operations and known petroleum resources			<p>If within 1000 m, demonstrate that development and activities would:</p> <ul style="list-style-type: none"> ● not preclude or hinder the expansion of existing operations, or their continued use, or establishment of new resource operations, or access to the resources; ● not be incompatible for reasons of public health, public safety or environmental impacts. <p>Development and activities which preclude or hinder the establishment of new operations or access to resources, and are adjacent to or in known mineral deposits, petroleum resources, or in significant areas of mineral or petroleum potential, are permitted if:</p> <ul style="list-style-type: none"> ● resource use is not feasible; or ● the proposed land use or development serves a greater long-term public interest, and ● issues of public health, public safety and environmental impacts are addressed.
Non-operating mine site within 1000 metres			<p>If within 1000 m, demonstrate to the satisfaction of the Ministry of Northern Development and Mines that the mine has been rehabilitated OR all potential impacts have been investigated and mitigated.</p>
Rehabilitated and abandoned mine sites			<p>If proposal is on, adjacent to, or within 1000 m, consult with the Ministry of Northern Development and Mines. Progressive and final rehabilitation is required to accommodate subsequent land uses.</p>
Mineral aggregate operations, and known deposits of mineral aggregate resources			<p>There is need for a feasibility study to determine noise, dust/particulate and hydrogeology if sensitive land use is proposed within:</p> <ul style="list-style-type: none"> ● 1000 m of the property boundary line (or licensed area) of any land designated for or an existing pit; or ● 1000 m of the property boundary line (or licensed area) of any land designated for or an existing quarry. <p>If within 1000 m of a known deposit of sand, gravel or a bedrock resource, need to demonstrate that development and activities would:</p> <ul style="list-style-type: none"> ● not preclude or hinder the expansion of existing operations, or their continued use, or establishment of new resource operations or access to the resources; ● not be incompatible for reasons of public health, public safety or environmental impacts. <p>Development and activities which preclude or hinder the establishment of new operations or access to resources, and are adjacent to or in known deposits of mineral aggregate resources, are permitted if:</p> <ul style="list-style-type: none"> ● the resource use is not feasible; or ● the proposed land use serves a greater long-term public interest, and ● issues of public health, public safety and environmental impacts are addressed.
Natural heritage systems			<p>If development and site alteration are proposed in a natural heritage system described in an approved official plan, demonstrate how the diversity and connectivity of natural features and the long-term ecological function and biodiversity of the system will be maintained, restored or improved.</p>
Significant wetlands in Ecoregions 5E, 6E and 7E; Significant coastal wetlands; Significant habitat of endangered species and threatened species			<p>Development and site alteration are not permitted in the features.</p> <p>Are any significant wetlands, significant coastal wetlands or unevaluated wetlands present on the subject lands or within 120 m?</p> <p>Are any known significant habitats present on the subject lands or within 50 m?</p> <p>Has there been preliminary site assessment to identify whether potentially significant habitats are present?</p>
Significant wetlands in the Canadian Shield north of Ecoregions 5E, 6E and 7E			<p>Development and site alteration are not permitted in the feature unless it can be demonstrated that there will be no negative impacts on the natural features or their ecological functions.</p> <p>Indicate if there are any significant wetlands, significant coastal wetlands or unevaluated wetlands present on the subject lands or within 120 m.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature / land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature / land use, specify distance from site (in metres)	Additional information that may be required
Significant woodlands and valleylands south and east of the Canadian Shield; Significant wildlife habitat; Significant Areas of Natural and Scientific Interest (ANSI)			<p>Development and site alteration are not permitted in the feature unless it can be demonstrated that there will be no negative impacts on the natural features or their ecological functions.</p> <p>Indicate if there are any significant woodlands, significant valleylands, significant wildlife habitat, and Areas of Natural and Scientific Interest (ANSIs) on the subject lands or within 50 m.</p>
Fish habitat			<p>Development and site alteration are not permitted in fish habitat except in accordance with provincial and federal requirements.</p> <p>Is any fish habitat on the subject lands or within 30 m?</p> <p>Is any lake trout lake on the subject lands or within 300 m?</p> <p>If yes to any of the above, an environmental impact study may be required.</p>
Adjacent lands to natural heritage features and areas			<p>Development and site alteration are not permitted on adjacent lands to natural heritage features unless:</p> <ul style="list-style-type: none"> ● the ecological function of the adjacent lands has been evaluated; and ● it has been demonstrated that there will be no negative impacts on the natural features or their ecological functions.
Sensitive surface water features and sensitive groundwater features			<p>Development and site alteration are restricted in or near sensitive surface water features and sensitive groundwater features.</p> <p>Demonstrate suitable mitigation measures and/or alternative development approaches to protect, improve or restore sensitive surface water features, sensitive groundwater features and their hydrologic functions.</p>
Water quality and quantity			<p>An assessment is generally required to determine potential impacts of development proposals on water quality and quantity.</p> <ul style="list-style-type: none"> ● If the proposal is adjacent to a water body such as a lake or stream, wetland, spring, or ground water recharge area, an impact assessment on the water body may be needed. ● As well, in areas of high water table, fractured bedrock or thin overburden, a hydrogeological report may be required in accordance with the Ministry of Environment (MOE) D-Series Guidelines. <p>(These are not the only instances when a technical study may be needed).</p> <p>Development adjacent to a lake trout lake must address other requirements. Consult with the Ministry of Municipal Affairs and Housing early in the planning process.</p> <p>The province has particular interests in lake trout lakes.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature / land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature/land use, specify distance from site (in meters)	Additional information that may be required
Natural hazards			<p>Development should generally be directed to areas outside of hazardous lands and hazardous sites.</p> <p>Is the proposal within:</p> <ul style="list-style-type: none"> ● a dynamic beach hazard? ● the defined portions of the one hundred year flood level along the connecting channels of the Great Lakes? ● areas that would be inaccessible as a result of flooding, erosion or dynamic beach hazards and a floodway? <p>Is the proposal subject to limited exceptions such as:</p> <ul style="list-style-type: none"> ● safe access appropriate for the nature of the development and the natural hazard? ● Special Policy Area? ● uses which by their nature must locate in the floodway? <p>Where development is permitted in portions of hazardous lands and hazardous sites not subject to the above prohibitions, flood-proofing, protection works standards and access standards must be adhered to. In addition, vehicles and people need to have a way to safely enter and exit the area, hazards cannot be created or aggravated and there can be no adverse environmental impacts.</p> <p>Is the subject land within or partially within:</p> <ol style="list-style-type: none"> 1. hazardous lands adjacent to the shorelines of the Great-Lakes – St. Lawrence River System and large inland lakes (includes flooding, erosion and dynamic beach hazards)? 2. hazardous lands adjacent to river, stream and small inland lake systems (includes flooding and erosion hazards)? 3. hazardous sites (includes unstable soils and unstable bedrock)? 4. a special policy area shown in an approved official plan? 5. the food fringe in an area subject to the two zone concept of floodplain management? <p>If the proposal is in a hazardous area, demonstrate how the hazards will be avoided, or where appropriate, addressed through standards and procedures such as flood-proofing and protection works.</p>
Human-made hazards ⁴ including mine hazards and high forest fire hazards			<p>Development proposed on abutting or adjacent to lands affected by: mine hazards; oil, gas and salt hazards; or former mineral mining operations, mineral aggregate operations or petroleum resource operations, may be permitted only if rehabilitation measures to address and mitigate known or suspected hazards are under-way or have been completed.</p> <p>Are the subject lands on or within 75 m of existing un-decommissioned oil and gas works?</p> <p>Are the subject lands on or within 1000 m of a salt solution mining well?</p> <p>Demonstrate how the hazard(s) will be addressed.</p>
Mine hazards, former mining operations, or rehabilitated and abandoned mine sites			<p>If the proposal is on, adjacent to, or within 1000 m of mine hazards, former mining operations, rehabilitated mine sites, abandoned mine sites or AMIS identified sites, progressive and final rehabilitation will be required to accommodate subsequent land uses; all work undertaken must be to the satisfaction of the province.</p>
Contaminated sites			<p>To determine potential soil contamination, proponents must complete a Phase1 Environmental Site Assessment (ESA) as per the Ministry of Environment regulation. A Phase 2 Environmental Site Assessment would be needed if the site has potential for soil contamination.</p> <p>Remediation of contaminated sites shall be undertaken, as necessary, prior to any activity on the site(s) associated with any proposed new sensitive use such that there will be no adverse effects.</p>

Development Circumstances OR Features of Interest to the Province	(a) If a feature / land use, is it on site or within 500 m OR (b) If a development circumstance, does it apply?	If a feature / land use, specify distance from site (in metres)	Additional information that may be required
Crown lands			<p>Consult your local regional Municipal Services Office as the first point of contact for assistance in dealing with planning issues relating to proposals requiring the acquisition or use of Crown lands.</p> <p>Contact the Ministry of Natural Resources District Office regarding the actual acquisition or use of Crown land.</p>
Notes: <ul style="list-style-type: none"> 1. Class 1 Industry - small scale, self-contained plant, no outside storage, low probability of fugitive emissions and daytime operations only. 2. Class 2 Industry - medium scale processing and manufacturing with outdoor storage, periodic output of emissions, shift operations and daytime truck traffic. 3. Class 3 Industry - indicate if within 1000 metres; processing and manufacturing with frequent and intense off-site impacts and a high probability of fugitive emissions. 4. Hazardous Sites - property or lands that could be unsafe for development or alteration due to a naturally occurring hazard(s). These hazards may include unstable soils (sensitive marine clays - Leda, organic soils) or unstable bedrock (Karst topography). 5. Certain areas of Crown Lands are identified by MNR as being of special interests, such as lake access points. <p>Distances quoted in Table A are approximate and are intended for your guidance in assessing your application.</p>
